Challenges Faced by Placement Cell

- ✓ Hence Students prefer choosing schools near their residence.
- ✓ Unpredictable industry demand and supply
- ✓ Mismatch between the student expectations and school requirements in terms of salary and expected skills.

Future Plan of Placement Cell

Strategies to overcome the challenges faced by placement cell and Future plans for the placement cell to enhance its effectiveness are, from 2023 onwards regular workshops will be conducted and Mentor Mentee system will be implemented for facing interviews with confidence. A Crisp CV/ Resume Writing Workshop is already scheduled for the current batch students. The traditional way of writing CV will be replaced by emerging trend CV, which will help them to find right job. More networking will take place with the schools and alumni members.

The objective of the placement cell is to provide students with employment opportunities. It prepares the students for the job interviews and provides them with requisite training in various aspects like preparing resumes, facing interviews with poise and confidence, personal grooming and professional etiquettes.

Every year, many educational institutions approach the college calling for placement of students in their institutions.
